Section A – Introduction:

A1 – A note to the Headteacher:

Before you devise your school health and safety policy, please read the following information:

1. The headteacher must keep the policy up to date to show how health and safety is managed within the school environment.
2. The employer (the local authority, governing body, or proprietor) is responsible for health and safety, though tasks may be delegated, the responsibility cannot.
3. You should consult with staff and governors when devising the policy and ensure that all staff have an opportunity to contribute, and so staff have an understanding of what it means for them.
4. Some schools prefer to devise a short policy and cross reference to other documents held in school.
5. The policy must be signed and dated by the headteacher and chair of governors, the policy should also be reviewed at least annually or sooner if there is any reason to suspect it is no longer valid.
6. As the policy is a management tool, it is likely to be one of the first documents you are asked to produce when visited by an HSE Inspector.

A2 – The law regarding health and safety policies:

A written health and safety policy is a statutory requirement where an employer employs five or more people. It must be consulted with the employees & recognised trade unions and shown to an HSE Inspector or Kent County Council (KCC) auditor if requested.

A robust safety policy demonstrates to staff, pupils and visitors that the organisation values their health, safety and welfare.

The allocation of responsibilities and the recording of particular arrangements to implement the policy encourage a clear approach to the management of health and safety.

For schools who are developing or revising their health and safety policy, this guidance and suggested detail can be presented to staff for consultation to add specific content, and staff can have adequate time to have an input into the policy contents. After any appropriate re-drafting, this can then be presented for approval to the school management team before final adoption by the governing body. Therefore, writing the policy in consultation with all staff clarifies the arrangements made and helps give them ownership.

This process also provides for information to be shared later with others such as visitors and contractors.

The policy will then be reviewed annually in line with the cycle on the management plan but will be amended if new legislation/procedures etc. make this necessary.
